EDUCATION AND CERTIFICATION

Emory University **Atlanta, GA**
Bachelor of Science in Computer Science *Aug 2019 – May 2025*
Certification

- AWS Certified Cloud Practitioner | AWS Certified AI Practitioner
- Microsoft Office Specialist: 2016 Master
- Dele B1 Spanish Certification

TECHNICAL SKILLS & LANGUAGES

Skills: Programming Languages(Java, Python, C), Web Technologies(HTML, CSS, JavaScript), Frameworks(Django, Flask), Databases(PostgreSQL), Operating Systems(Linux), Version Control(Git, GitHub), Cloud Platforms(AWS, GCP)
Languages: Korean (Native), English (Fluent), Spanish (Intermediate), Japanese (Intermediate)
Relevant Coursework: Artificial Intelligence, Database Systems, Data Structures and Algorithms, Machine Learning, Human Computer Interaction, Deep Learning, Systems Programming, Data Mining, Computational Linguistics

PROJECTS & TECHNICAL EXPERIENCE

Computational Linguistics, *EmaiLLM: Bulk Cleanser* *Jan 2025 – May 2025*

- Led frontend development and co-designed backend logic for a full-stack NLP-based email classification platform using Gemini LLM and achieved 74% tagging accuracy via dynamic RESTful inbox folders categorized by user-defined keywords.
- Built a responsive web interface and engineered selective email downloading/deletion features to optimize inbox storage efficiency in simulated environments.

Data Mining, *Heart Attack Risk Prediction: A Data Mining Approach* *Jan 2025 – May 2025*

- Developed a logistic regression model in Python (scikit-learn), achieving 84% accuracy and uncovering key age-based trends through stratified analysis.
- Co-authored an academic research paper comparing model performance across age groups and classifiers, emphasizing predictive reliability and interpretability in clinical applications.

Computer Science Practicum, *League of Legends game companion app* *Jan 2024 – May 2024*

- Led frontend development in a Scrum-based team to build a responsive Django web app with HTML, CSS, JavaScript and integrated backend logic for real-time game data, deployed via AWS EC2 on Ubuntu.
- Managed Git-based collaboration, contributed to wireframes and weekly sprints, and enabled users to download a companion tool delivering in-game status and strategic tips.

WORK EXPERIENCE

NH INVESTMENT & SECURITIES CO.,LTD. **Seoul, South Korea**
Investment Banking Intern *Jul 2022 – Aug 2022*

- Supported projects for a Private Equity department by designing financial graphs and data tables to explore viable office investment within a variety of business districts and determine non-advantageous options.
- Analyzed costs, expenses, and revenues of recent constructions for future overseas office investment purposes, and identified opportunities to maximize revenue in key markets with affordable construction supplies.

Private Tutoring **Seoul, South Korea**
IGCSE, International Baccalaureate Tutor *Jul 2020 – Aug 2022*

- Delivered one-on-one instruction in physics and mathematics, tailoring lesson plans to student performance data and curriculum standards.
- Developed customized learning plans and diagnostics by analyzing student problem-solving patterns and improving exam-readiness through targeted practice.

MILITARY EXPERIENCE

Korean Army Sergeant service completed **South Korea**
Korean Army Head Quarter Human Resource Staff *Nov 2020 – May 2022*

- Maintained and updated personnel databases for 100+ soldiers and commanders, ensuring data accuracy across training status, leave schedules, and mission readiness during routine and high-pressure scenarios.
- Played a key coordination role during the COVID-19 pandemic, receiving commendation for crisis logistics support involving real-time communication, personnel redeployment, and contingency planning.
